

# MINING ECONOMIC UPDATE AND PROCUREMENT NETWORKING EVENT

**Wednesday 16 June 2021 | Muswellbrook RSL Club**

The Muswellbrook Chamber of Commerce and Industry and the Upper Hunter Mining Dialogue are proud to jointly present an exciting two-part event for Muswellbrook businesses.

Following on from the critical May by-election in the Upper Hunter, NSW Minerals Council CEO Stephen Galilee will brief attendees on a new report analysing the vital economic contribution of mining to the Hunter region and outline some of the key policy issues for the industry and those that rely upon it for their livelihoods.

A networking event will follow, providing an opportunity for interested suppliers to 'meet the buyers' and connect with procurement representatives from various local mining companies. This event is ideal for businesses looking to commence engagement with the mining sector and learn how to best equip themselves for a successful tendering experience.

---
